

Box Bolt®

A KEE SAFETY PRODUCT

SAFE STEELWORK CONNECTIONS

The Approved Blind Steelwork Fixing

- LARGE OVERLAPPING FIXING RANGE
- ZINC PLATED, HOT DIP GALVANISED, STAINLESS STEEL
- BOXSOK TOOL FOR EASE OF INSTALLATION

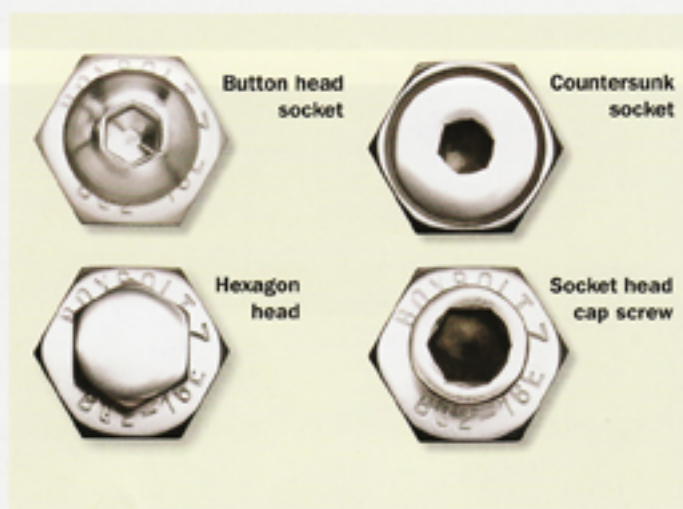

BoxBolt®

Boxbolt is an extensively tested and approved blind fixing solution for connecting to hollow section steelwork or to general steelwork sections where access is restricted to one side only. **BoxBolt** features a hexagon head design to aid installation with a standard spanner but also allows installation with our unique **Boxsok™** tool when installation

time needs to be kept to a minimum. **BoxBolt** is available in three finishes, being zinc plated, hot dip galvanised and stainless steel as well as being available in three different lengths, making **BoxBolt** suitable for many environments and applications.

Features of BOXBOLT

- Available in Zinc plated, Hot Dip Galvanised and Stainless Steel
- Available in three different lengths
- 5 to 1 factor of safety
- Hexagon head design

Benefits of BOXBOLT

- Approved by Lloyds Register and DIBt
- Easily specified via TEKLA structures
- Available via FASTRACK CAD database
